Santa Cruz Total	2,213,557	2,284,006	3.18%	118,781	70,449
Shared Print⁴	235,955	255,862	8.44%		

A Volume is defined as "a single physical unit of any printed, typewritten, handwritten, mimeographed, or processed work, distinguished from other units by a separate binding, encasement, portfolio, or other clear distinction, which has been cataloged, classified, and made ready for use, and which is typically the unit used to charge circulation transactions. Either a serial volume is bound, or it comprises the serial issues that would be bound together if the library bound all serials."

Consistent with the Association of Research Libraries' (ARL) annual statistics survey, the UC library volumes count includes ebooks. See Table 8, Digital Resources, for the number of ebooks reported by the libraries.

"Net" volumes added are the total volumes added to the collection ("Gross") minus withdrawals.

¹ UCLA's figures are lower than last year due to double-counting of an Affiliated collection in 2011-12.

² San Diego consolidated its Health Sciences collection into the General collection.

³ San Francisco added all ebooks from the shared cataloging program this year. Previously, UCSF only included medical ebooks.

⁴ The Shared Print Collection is housed on campuses and in the RLFs. It consists of JSTOR (retrospective), WEST (retrospective), journals for licensed e-journal packages (prospective), print monographic series (prospective), literary presses (prospective), CoreStor (retrospective), IEEE Journals and Proceedings (retrospective), EEBO STC I and II microfilms (prospective), ArtStor Hartill Collection slides (retrospective), and Springer print monographs (prospective). Volume equivalents are reported here.

University of California Library Statistics
Table 2
Serial Titles
2012-13

	Purchased	Not purchased
Berkeley	73,961	38,038
Davis	69,738	37,914
Irvine	82,341	55,017
Los Angeles	72,676	56,923
Merced	57,475	36,927
Riverside	99,696	43,384
San Diego	73,687	41,022
San Francisco	56,075	36,086
Santa Barbara	69,027	43,326
Santa Cruz	56,534	36,927
Licensed by CDL	53,520	36,927

A serial is defined as: *"a publication in any medium issued in successive parts bearing numerical or chronological designations and intended to be continued indefinitely. This definition includes periodicals, newspapers, and annuals (reports, yearbooks, etc.); the journals, memoirs, proceedings, transactions, etc. of societies; and numbered monographic series."*

CDL provided SFX reports from July, 2013, to each campus for all licensed titles (Tiers 1, 2 and 3). The campuses were free to use those figures or provide their own. The "Licensed by CDL" total is also from the SFX report.

Campus reports include ALL serial titles acquired, whether through consortial licensing or local purchases.

¹UCLA's figures are lower than last year's because some library materials were double-counted in 2011-12.

²As of 6/30/12, Santa Cruz reports no government documents; they are included in other categories.

¹ Most electronic reference source sessions and searches, when provided in this table, are incomplete.

² Davis' sessions and searches are from Law Library only, which reported 12 electronic reference sources

³ Merced's digitized collections figures do not include 44 ETDs (630 MB) with 2,432 views.

⁴ Riverside's data collection methods for digitized collections have been modified since last year, resulting in some decreases compared to FY 2011-12 data.

Instructions and Definitions for Digital Resources

"**Electronic reference sources**" includes licensed citation indexes and abstracts; full-text reference sources (e.g., encyclopedias, almanacs, biographical and statistical sources, and other quick fact-finding sources); full-text journal and periodical article collection services (e.g., EBSCOhost, ProQuest, Academic Universe, and INFOTRAC OneFile); dissertation and conference proceedings databases; and those databases that institutions mount locally.

A **session** or login is one cycle of user activities that typically starts when a user connects to an electronic resource and ends with explicit termination of activities (by leaving or through logout or exit) or implicit termination (time out due to user inactivity).

A **search** is intended to represent a unique intellectual inquiry. Typically, a search is recorded each time a search request is sent/submitted to the server.

E-books is a subset of "Volumes" in Table 1. Count the number of electronic full-text monographs that are owned or leased by your library. This includes electronic books purchased through vendors, such as netLibrary and Books24x7, and e-books that come as part of aggregate services. Include individual titles of e-book sets that are counted as individual reference sources reported in #2. *Include* locally digitized electronic books, theses and dissertations. *Include* e-books obtained through CDL licenses for which the library pays a reduced fee or no fee.

Digitized collections can include born digital materials or those created in or converted from different formats (e.g., paper, microfilm, tapes, etc.) by the library and made available to users electronically. This includes locally held digital materials that are not purchased or acquired through other arrangements (e.g., vendor, individual or consortial licensing agreement). Born digital collections can include materials self-archived in an institutional repository. Created or converted digital collections can include electronic theses and dissertations (ETDs), special collections materials, maps, sound recordings, and films.

Views: Number of times the unique files were accessed.

Queries: Number of searches conducted (if there is such a capability) during the reporting period.
