  - Committee held all meetings virtually using Ready Talk for web-based conference calls.

- **CDL ILL Ops Team (Goal 2.1)**
  - Group established and formed in fall 2009 to advise CDL in identifying and prioritizing project tasks, system migrations, and future service developments; communicating technical information between CDL and the campus ILL community; organizing and leading the UC ILL community in system testing and evaluation; and to consult with other UC groups as needed.

- **ISO ILL peer-to-peer policy (Goal 3.1)**
  - Policy was proposed and approved by SOPAG as of October 2010. To date, no new relationships established since policy was approved.

- **Green ILL (Goal 3.2)**
  - Adopted and promoted guidelines for staff to use when negotiating terms for use of electronic resources, specifically in relation to ILL use.

- **Established UC Libraries Emergency Response Listserv: RSC-UCLER-L (Goal 5.1)**
  - Established a listserv for UC library emergency responders. All RSC, IAG, and CAG members were subscribed to the listserv. 7 campuses provided additional participants (D, I, LA, SRLF, R, SB, SC, SD) to total 105 subscribers.
• Collaborative participation with SOPAG and other UC ACG groups. (Goal 5.2)
  ✓ RSC and HOPS established liaisons on each other’s committee listserv to help improve communications and coordinate activities between the two groups.
