Shared Print¹		302,133	353,380	16.96%		

A Volume is defined as "a single physical unit of any printed, typewritten, handwritten, mimeographed, or processed work, distinguished from other units by a separate binding, encasement, portfolio, or other clear distinction, which has been cataloged, classified, and made ready for use, and which is typically the unit used to charge circulation transactions. Either a serial volume is bound, or it comprises the serial issues that would be bound together if the library bound all serials."

Consistent with the Association of Research Libraries' (ARL) annual statistics survey, the UC library volumes count includes ebooks. See Table 8, Digital Resources, for the number of ebooks reported by the libraries.

"Net" volumes added are the total volumes added to the collection ("Gross") minus withdrawals.

¹ The Shared Print Collection is housed on campuses and in the RLFs. It consists of JSTOR (retrospective), WEST (retrospective), journals for licensed e-journal packages (prospective), print monographic series (prospective), literary presses (prospective), CoreStor (retrospective), IEEE Journals and Proceedings (retrospective), EEBO STC I and II microfilms (prospective), ArtStor Hartill Collection slides (retrospective), and Springer print monographs (prospective). Volume equivalents are reported here.

University of California Library Statistics
Table 2
Serial Titles
2014-15

	Purchased	Not purchased
Berkeley	81,005	41,828
Davis	83,129	43,407
Irvine	90,513	64,203
Los Angeles	105,917	54,048
Merced	72,374	43,972
Riverside	126,883	48,210
San Diego	86,273	39,732
San Francisco	70,407	43,980
Santa Barbara	77,914	50,228
Santa Cruz	60,606	43,972
Licensed by CDL	53,520	36,927

A serial is defined as: *"a publication in any medium issued in successive parts bearing numerical or chronological designations and intended to be continued indefinitely. This definition includes periodicals, newspapers, and annuals (reports, yearbooks, etc.); the journals, memoirs, proceedings, transactions, etc. of societies; and numbered monographic series."*

CDL provided SFX reports from July, 2014, to each campus for all licensed titles (Tiers 1, 2 and 3). The campuses were free to use those figures or provide their own. The "Licensed by CDL" total is also from the SFX report.

Campus reports include ALL serial titles acquired, whether through consortial licensing or local purchases.

¹ Most electronic reference source sessions and searches, when provided in this table, are incomplete.

² Davis' usage statistics are from the Law Library only, and based on searches on 6 sources (Lexis, Westlaw, CCH, BNA, Gale, HeinOnline).

³ Due to a redesign of UCLA's website, the Digital Library page was obscured for about six months, accounting for the decrease in views and queries from last year.

⁴ UCSD's digitized collections include research data figures. 2014-15 data includes ARTstor, Shared Shelf public collections, ETDs, Special Collections and Archives, and data curation content.

Instructions and Definitions for Digital Resources

"**Electronic reference sources**" includes licensed citation indexes and abstracts; full-text reference sources (e.g., encyclopedias, almanacs, biographical and statistical sources, and other quick fact-finding sources); full-text journal and periodical article collection services (e.g., EBSCOhost, ProQuest, Academic Universe, and INFOTRAC OneFile); dissertation and conference proceedings databases; and those databases that institutions mount locally.

A **session** or login is one cycle of user activities that typically starts when a user connects to an electronic resource and ends with explicit termination of activities (by leaving or through logout or exit) or implicit termination (time out due to user inactivity). Note that **sessions** will be phased out after this year.

A **search** is intended to represent a unique intellectual inquiry. Typically, a search is recorded each time a search request is sent/submitted to the server.

E-books is a subset of "Volumes" in Table 1. Count the number of electronic full-text monographs that are owned or leased by your library. This includes electronic books purchased through vendors, such as netLibrary and Books24x7, and e-books that come as part of aggregate services. Include individual titles of e-book sets that are counted as individual reference sources reported in #2. *Include* locally digitized electronic books, theses and dissertations. *Include* e-books obtained through CDL licenses for which the library pays a reduced fee or no fee.

Digitized collections can include born digital materials or those created in or converted from different formats (e.g., paper, microfilm, tapes, etc.) by the library and made available to users electronically. This includes locally held digital materials that are not purchased or acquired through other arrangements (e.g., vendor, individual or consortial licensing agreement). Born digital collections can include materials self-archived in an institutional repository. Created or converted digital collections can include electronic theses and dissertations (ETDs), special collections materials, maps, sound recordings, and films.

Views: Number of times the unique files were accessed.

Queries: Number of searches conducted (if there is such a capability) during the reporting period.
