Shared Cataloging Program Advisory Committee
Conference call Monday, December 19, 2011 3-3:33 PM

Present: Trina Pundurs (UCB), Sarah Gardner (UCD), Wanda Jazayeri (UCI), Valerie Bross (UCLA), Jim
Dooley (UCM, for Sarah Sheets), Becky Culbertson (UCSD/SCP), Elaine McCracken (UCSB, chair), Yi-Yen
Hayford (UCSC), Jim Clark (UCR)

1. Announcements
   a. Sarah Sheets has returned to Merced; she will be re-joining us in January
   b. Watch for message from campus Melvyl liaison with title: "Major Melvyl enhancements coming
      in January." Among the enhancements: View Now and Central Indexes to be available. Open
      Access resources will be directly accessible, including HathiTrust and .gov links. (Unclear
      whether BibPURLs will also be expedited; Becky will investigate in January.)

2. SCP Update (Becky Culbertson)
   a. EEBO records: In January, campuses will receive 125,000 records (re-release of past records plus
      25/30,000 new records).
   b. 19th century newspapers (gale): Completed .
   c. Burney 17th/18th century. 40% are "newsbooks" which are treated as monographs; files to be
      released beginning in January.
   d. Directory of Online Journals (DOAJ): 1100 records are in the process of being added
   e. New collaborative project: UCSD is investigating partnering with U Maryland to catalog IEEE
      Xplore records as an OCLC WorldCat Collection Set. In the past, IEEE Xplore produced 300/400
      titles per year. Now, the package has taken off and is rapidly moving towards 1200 titles a year!
      The cooperative project with U Maryland will provide more timely access to records in this
      package.

3. 2012 Meeting Schedule
   a. Background: Received a request from Adolfo Tarango to start the meetings earlier, so we can
      finish by 3:30 pm. All present agreed this would be ok; so Elaine McCracken will contact the rest
      of SCP-AC. If all agreed, beginning in 2012, to begin either at 1:30 or 2:00.
   b. Holidays: January 16 (MLK) and February 20 (Presidents' Day) are holidays. Elaine McCracken
      will send out a Doodle Poll to determine alternate days/times for those months.

4. NGTS Updates: Those members who are on POTS or Lightning Teams reported on progress. Most
   Lightning Teams are somewhere in the process of completing assignment: developing surveys,
   completing surveys.

5. Other items: OCLC WorldShare Management Services:
   a. Merced is planning to move to WMS.
   b. The Scripps Research Institute has made the move to WMS. This week, both WMS and III
      systems are running in tandem. However, the local OPAC will end Dec. 31.
