- No Announcements

2. OCLC symbols and potential lost revenue in ILL (10 minutes--Newborn email from 8/14/12)

- Discussion centered on the two new OCLC codes for each campus – XXXER and XXXSP.
- These two new symbols create issues for non-UC institutions who have our standard symbols in their custom holdings, and they may not be aware that we may have material using these other OCLC codes.
 - We start to lose revenue at this point, because the request goes to the next supplier listed in the borrower's custom holdings.
- Additive versus Substitutive approach to cataloging these records:
 - SRLF is using the additive approach to catalog these records. There isn't an easy way to remove the main symbol, but it is a lot easier to add a symbol.
 - NRLF is using the substitutive approach to catalog these records.
- XXXER records:
 - ER records are coming up as non-suppliers.
 - In order to make these records visible for borrowing, the group is recommending the additive approach to cataloging these records.
- ACTION: Sarah Troy will draft a letter to SOPAG to address our concerns.

3. RapidILL (15 minutes -- Newborn)

- Should we ask CDL to work on making a closer link between RapidILL and VDX?
 - Both RSC and IAG prefer that CDL dedicate their time on VDX 6.0 implementation.
 - There was no great amount of usage for the Linda Hall collection to warrant anytime making VDX work more closely with RapidILL.
 - We will review the need to create a close link between these two systems, if the demand warrants it.

4. Action Item Updates (10 minutes – ALL)

- VN: fix links in charge: <http://libraries.universityofcalifornia.edu/rsc/charge.html>: Completed.

- **ST: inquire w/ Gary Johnson about status of HOPS/RSC ILL report and SPiP TF recommendations:** Loan rule information that was recently gathered was forward to Gary Johnson. A report should be forthcoming.

5. Courier Coordinator Update (5 minutes – Jimenez)

- Accurate is hiring a dedicated driver for the Berkeley area.
- Accurate is actively looking into the delivery issues at UCSF.
 - UCSF is not receiving immediate responses from Accurate staff when contacting them.
- Claudia reminded everyone to continue to send trouble tickets when there are issues.
- If there are any other concerns, please go through Claudia.

6. SOPAG Update (5 minutes—Parker)

- ACG's will be having a face-to-face meeting.
 - There will be a review of the ACG structure, which was asked for by CoUL.
- Start reviewing NGTS pages.
 - Reports are starting to come in.

NEXT MEETING: September 25, 2012 2-3pm (recorder: Merced? / backup: San Diego?)
