Cataloging and Metadata Common Knowledge Group Charter

1. Summary and Scope of Work

This CKG is a standing group of experts and pioneers in the area of cataloging and metadata. This CKG communicates with and provides support to the UC Libraries Advisory Structure but does not make systemwide policy decisions, manage projects or project teams, or oversee ongoing services.

The cataloging and metadata CKG will discuss, research and collaborate with group members and other cataloging and metadata practitioners throughout the UC system to help ensure common practices and effective outcomes for cataloging and metadata operations. The CKG will build up a common knowledge base on cataloging and metadata issues and seeks to develop additional experts.
