Announcements (All)

None

Updates from SILS Phase 4 Groups

Resource Management Functional Group (Liz)

- Working on merge rules, made some changes to the MDE and Connexion ones
- Allowing 856 42s to export and come in, asking campuses to have catalogers check their records
- Have not started WorldCat updates yet

Acquisitions & E-Resource Functional Group (Sarah)

- Wrapping up loose ends, incl proxy use systemwide, licensing, outbound linking workshops
- Will be eventually splitting up Acq and E-Resources into separate groups
- Testing use for reporting codes and systemwide recommendations

ILS Data Cleanup Group (TJ)

- Members are identifying local data that crept into Network Zone for CDL to clean up later

SCP SILS Phase 4 Update (Shi)

- Cleanup continues, some are still pending on CDLA tasks, such as move P2E into collections, cleanup remain standalone P2E portfolios

- CDLA and SCP currently continue to unsuppress collection level records; complicated cases need to be discussed and resolved: such as one bib to many collections, or one collection with more than one bib.

SCP Updates (Shi and Becky)

- Focus on learning, develop and test each workflow while learning, tweak import profiles, etc.
 - Mostly on DDA packages
 - Match and bring SCP records for matched collections into Alma production (collection level bib records)
 - Catalog for new collections (the launch process), the SCP workflow
 - Recently started to test with Springer and Wiley journals CDL signed in April
- Becky has been busy cataloging for collection level records that lack OCLC bib records, done with OA collections, and moved on to licensed
- Kate and Shi started to work with Gem Stone-Logan on pull SCP statistics

Other

- ISSN portal renewal (Liz): We almost had a system-wide deal last year. Has anyone already renewed for 2022?
Let Liz know if your campus has renewed ISSN subscription for 2022 by October 29, Friday.
 - UCLA: We have not renewed. We have PO note directing Acq staff to not renew until we receive confirmation that CDL will not be moving forward with shared subscription.
 - UCD: We haven't renewed either. The invoice will probably arrive in January.
- Discussion on [CDL's models](#) of handling linking one bib to multiple subcollections (Shi)
