1. Summary and Scope of Work

This CKG is a standing group of library staff members from across the UC system with a vested interest in the areas of equity, diversity, inclusion (EDI), as well as accessibility, and anti-racism in library policy and practice. These staff members may be working on campus-specific committees in the areas of EDI, but membership in these groups is not necessary for participation in the CKG.

This CKG communicates with and provides support to the UC Libraries Advisory Structure but does not make systemwide policy decisions, manage projects or project teams, or oversee ongoing services.

This CKG provides a forum to actively support building campus-based diversity, equity and inclusion work at the systemwide level, as listed in the 2020-2021 UC Libraries Annual Plans and Priorities document as a new project. This CKG will provide input to CoUL and DOC as needed on their goals to “develop through facilitated dialogue a shared understanding of how the UC Libraries can actively engage in anti-racism and equity work; with that foundational understanding, build further near- and long-term equity goals within the systemwide priorities,” and “discuss local diversity, equity and inclusion initiatives and pursue opportunities to build on and advance such work to transform our approaches, resources, services and operations at the systemwide level.”

This CKG has an aspirational impact of building a systemwide set of values and goals around EDI work, and supporting these goals through ongoing discussions, reporting, and advocacy for centering EDI in library services and recruitment / retention. The goal of this CKG is to help build a more diverse and equitable library system across UC via a grassroots approach.

The CKG’s work will be done through sharing of knowledge resources, collaboratively exploring and developing shared guidelines and best practices for EDI work, reporting on current campus initiatives, sharing training opportunities, among other activities.

2. Key Expectations

This CKG will:
- Discuss current and planned initiatives across the UC library system.
- Gather and share information about the environment, opportunities, new technologies,
best practices, and local campus developments within the knowledge areas of equity, diversity, and inclusion.

- Provide input and information to other UC Libraries groups, such as DOC and CoUL, as requested.
- Conceive and advance innovative ideas and improvements relevant to the UC Libraries’ Systemwide Plan and Priorities.

This CKG aims to offer support to UC Libraries EDI groups and is not meant to be project driven.

3. Membership and Terms of Appointment
