Updates from SILS Operations Groups

Resource Management

UC-wide session on publishing profiles was great!

WorldCat Updates: We had originally planned on using a 903 field to exclude records from overlay during the WorldCat update process. We recently discovered that using that field won't work as intended and also agreed that excluding records from updates sort of defeats the goals/best practices for the NZ in general. Going forward, if a campus needs to exclude records from WorldCat updates it should be stored only in the campus IZ.

CJK searching: In order to fix the issue with simplified and traditional characters not mapping correctly, Ex Libris has suggested testing their proposed solution in the sandboxes: 1 or 2 IZs and the NZ. We're going to wait until after the sandbox refresh and then see how it goes. If all goes well and we want to proceed, we'll have to ask them to set it up in all of the instances *and* re-index everything. RM will have to work with Ops on the timing for that. UCSD or UCLA will test in the IZ.

Acquisitions/E-Resources

Sarah Sheets ER group has created a CDL assessment survey. Ex: Managing uses data; ideas for troubleshooting ; how CDL expenditures can be handled and tracked locally. Other pain points to be worked through.

SCP Operations Updates (Shi and Becky)

Gerritsen collection (women's suffrage and women's social conditions from the 17th-19th century is being worked on. 4500 records. The CZ portfolio records are very skimpy so good records from OCLC will be used instead.

Hathi-Trust. Discussion on a possible group to talk about both good and bad HT examples. TJ (thank you, TJ) will create a Google form for a place to send in good/bad examples and discussion. Jared (UCD) will ask the Discovery group about issues and possible other examples as well.
