**Announcements (All)**

**UCSD:** We have a Spanish language metadata specialist working in Books & Serials and Special Collections and an Intern who is working in e-resources and will be doing some extensive edits for our DOAJ this year

**Updates from SILS Operations Groups**

**Resource Management**

- Met with Gem and Alison (along with TJ, Liz, and Ryan) to test out WCU “New” and “Merges” files in the sandbox. Seemed to go really well. It would be good for campuses to come up with a way to review the first several files when this is implemented in production.
- Have been drafting [campus ETD procedures](#) to document local practices. Still discussing feedback and changes, plus opportunities for harmonization

- CJK reindexing seems to be going well after initial issues. NZ goes on 8/25, after which ExL tells us “combined search” issues should be resolved

### **Acquisitions/E-Resources**

Discussion of takeaways from eCAUG conference. Sharing information on Apabi, CNKI and ARTSTOR statuses. Discussion of assigning the group’s work plan items a “minder” or lead to keep track of progress.

### **Other SILS Project Teams or Groups**

#### **Ethical & Inclusive Metadata Practices Team**

- A subgroup has gathered a long list of resources & training material related to DEIA metadata. The large group is reviewing and discussing the lists which are currently separated by topic. The Confluence platform is not an ideal place for this to live because tagging functionality is at the page level only, and we want to assign tags at the resource level.

#### **SCP Operations Updates (Shi and Becky)**

- On Gov. Doc. between MARCIVE and CZ collections:
  - I have heard back from 9 campuses: UCD, UCI, UCLA, UCM, UCR, UCSB, UCSC, UCSD, and UCSF, preferring to keep MARCIVE and deactivate CZ collection (UCSF doesn’t have MARCIVE, will go with the group decision).
  - I have not heard back from UCB
- ISSN Portal Tier 1: Update from CDL: CDL is investigating the possibility of a systemwide agreement and is in the process of requesting a proposal. CDL will work with SCLG for approvals and decisions, and additional input from SCP-AC is always welcome.
- Gobi analysis is complete. We are missing titles from collections. SCP is following up on this and the delay in getting some records. Gobi has a resource, Gobitween, for running comparison statistics and title-level reports.

#### **Other**

- Kevin: Slightly off topic, but the [UC CONSER Funnel](#) is without a UCB rep since Stella Tang retired. Does UCB have a replacement?

- UCLA: Heard from ISSN through EbscoNet that they cannot reduce number of seats, due to number of IP ranges. Ebsco is following up. Unsure what this actually means

**Action**

Confirm if your campus needs SCP to continue the list of systems liaisons
