Meeting ID: 924 4478 1698

One tap mobile

+16694449171,,92444781698# US

+16699006833,,92444781698# US (San Jose)

Elizabeth Richey (UCI), Yoko Kudo (UCR), Catherine Busselen (UCSB), Marcia Barrett (UCSC), Cat Lu (UCSF), Becky Culbertson (UCSD/SCP Ex Officio), Shi Deng (UCSD/SCP Ex Officio)

Absent: Kevin Balster (UCLA), Jason Dezember (UCB), TJ Kao (UCD), Sarah Sheets (UCM), Renee Chin (UCSD)

Notetaker: Yoko Kudo

Announcements (All)

- Ex Libris Idea Exchange proposals related to OA
 - [Display OA indicator based on setting in portfolio](#) (created by UCLA)
Everyone, please encourage people to vote.
This should be applied to the “Gold” titles (i.e., complete open content)
Portfolio level setting would allow manual edit (e.g., when something is incorrectly labeled as OA, etc.)
 - [Allow customization of link prioritization in the merged record to prioritize OA](#)

- [Head of SCP](#) has been posted on August 2, 2024, review application will start Sept. 4.
The screening committee offers two informational sessions, one last Thursday and the next one is this Friday. This will be a FULL time position. Upon successful recruitment, Shi will return full time to CJK Metadata at UCSD. Please help spread the word.
— Everyone, please share this with anyone who may be interested in the position. There is one more information session on Friday, 8/23.

Updates from SILS Phase 4 Groups

Resource Management Functional Group

- Reviewed ETD Marc file and get back to CDL. ETD standard record profile is almost complete. The next steps includes syncing with OCLC, etc.
- Expanded NZ Access Proposal being reviewed and will provide feedback before due date in early September.

Acquisitions & E-Resource Functional Group (Sarah)

Deferred to September meeting.

SCP Updates (Shi, Becky)

- **JSTOR DDA Transition:**
 - JSTOR stopped hosting a DDA program. DDA management is done by GOBI now.
 - Transition started on July 29 and completed on July 31. CDL ERT has been reviewing and reconciling the transition report with existing records in the JSTOR DDA collection in NZ.
 - Transition reconciliation is almost done; started to review new files and update/adjust routine workflow as needed
 - Pre-transition purchased titles are also added to GOBI as already owned status
 - FAQ is being developed which includes how titles in different statuses (pre-purchased, purchased, and pre-transition purchased) will appear in GobiTween service website using CDL account and campus account (screenshots included)
 - Shi will provide a link to the FAQ slides when it becomes available.
- Taylor & Francis Journals:
- As communicated by the Transformative Agreement Working Group, in preparation for the new agreement, Taylor & Francis has changed content access for UC on August 15, 2024. As of that date, current-year content (2024) has been reduced to journals included in the read access title list. CDL ERT has updated portfolios in the Network Zone by closing the date to 2023 for titles we lost access to current-year content (2024)(approx. 900 titles).
Further information will become available once the agreement is signed.
- Becky has been working on:
 - UNAM (Universidad Nacional Autónoma de México) OA eBook title level cataloging in progress
 - SPIE (Society for Photooptical Engineering) titles
 - OA Journals requested by campuses:
- Cambridge record delay due to access issues has been resolved.

Other

- MARCIVE records: Have new records been loaded?
 - Records are loaded by CDL Op Center. Cathrine will check with them and find out.
 - Also need to find out whether the UC license has been renewed.
- Have SCP's "—er" holdings been added to Worldcat Daily Updates?-- No. to do that, SCP IZ records need to be cleaned up.
 - CDLER holding is used by for eScholarship records sent via OCLC Gateway
- 720 in ETD record: Wouldn't 700 suffice for personal name?
 - 720 is for uncontrolled name; name was originally in direct order in ProQuest records; should it be kept in direct order or is 720 even necessary?-- to be discussed at RM-OST
 - indexing issue- it's up to campus
