University of California
Office of the President (UCOP)
Statistics
Fiscal Year 2023-2024

Prepared by the Alma Annual Statistics Analytics Project Team (AASA-PT)
<https://uc-sils.atlassian.net/wiki/spaces/AASAPT/overview>
for the University of California Libraries and the University of California Office of the President
<https://libraries.universityofcalifornia.edu/about/facts-and-figures/>

The University of California (UC) Libraries have maintained annual statistics regarding collections, operations and select services for over 75 years; some of these statistics are also utilized by the UC Office of the President (UCOP) for Regents reporting and risk management.

The Alma Annual Statistics Analytics Project Team (AASA-PT) was charged in 2022 to determine the extent to which the libraries can meet our shared data reporting obligations through harmonizing and centralizing data outputs in the Alma Analytics Network Zone. Beginning with the 2022-2023 reporting cycle, the AASA-PT has compiled annual statistics generated from the UC Alma Network Zone Analytics as well as campus-supplied statistics generated from campus institution zones and non-Alma (e.g., local manual counts, affiliates on separate integrated library systems, etc.) sources.

In this second year of work, the AASA-PT has continued practices developed in the 2022-2023 annual statistics cycle and has also incorporated new practices that further refine how UC Libraries' collections and related activities are counted.

Practices continued from 2022-2023 reporting

- Holdings stored in UC's regional library facilities (RLFs) are attributed to the applicable campus depositor and based on the facilities' holdings records.
- Each campus' electronic licensed content statistics also includes the shared licensed content that is activated/available for their local users.
- Withdrawal statistics have been removed from this high-level summary due to data inaccuracies and on-going developments and investigations for withdrawal processes.

New practices for 2023-2024 reporting

- Incorporated exclusion requirements from ACRL/IPEDS and ARL:
 - Exclude specific open access electronic resources.
 - Exclude unpurchased electronic resources (candidate DDA).
- Gathered non-ILS title counts in addition to volume counts.
- Refined certain exclusions applied in 2022-2023
 - Identified electronic resources portfolios with blank or null titles (new for 2023-2024).
 - Identified additional trial databases (campus-specific).
 - Identified additional equipment items and locations appearing in physical holdings counts.
- For campuses with affiliates, RLF holdings are attributed to the applicable affiliate.
- Removed “ - Physical” and “ - Electronic” format designations from resource types in this summary report to support plain-language communication about UC Libraries collections data.¹

¹ See the [AASA-PT decision page](#) for more details.

University of California (UC) Libraries & UC Office of the President (UCOP) Statistics
Fiscal Year 2023-2024

Additionally, some campuses changed local practices related to their campus-supplied (non-ILS) statistics (e.g., how and whether microformat collections are reported) which impacted some final statistics.

These changes were made using the team's iterative and consensus-led process, and ultimately adjusted UC Libraries' reporting toward greater accuracy, and are in alignment with the [AASA-PT's May 2023 report and recommendations](#) endorsed by the Council of University Librarians (CoUL), Direction and Oversight Committee (DOC) and SILS Leadership Group (SILSLG). Harmonizing and centralizing annual statistics reporting will continue to be an iterative, consensus-led process. The 2023-2024 statistics generation and summary is based on the 2022-2023 prototype; feedback is welcome and can be directed to team members listed on the [UC Libraries SILS AASA-PT Wiki](#).

The more detailed statistics tables found within this summary report are available at [UCL/UCOP Stats Report Fiscal Year 2023-2024](#).

* Interlibrary Loans (ILL) are defined by loans within the institution named as the service provider to the patrons at the institution.

** Intercampus loans are defined by loans outside the institution named, where the institution named is the service provider when loaning out and the service recipient when borrowing from other institutions involved in the transaction.

Number of queries	194,462	N/A	59,778	N/A			N/A	84,774	17,798,737	331,076	18,468,827

* Counts may include items that were "born digital".

** UCSF Google Analytics significantly changed their system. Numbers from previous years GA reports may differ in the way they were captured. Queries # represents number of times the /results/ pages were captured

*** UCSF Archives and Special Collections has digital collections dispersed across many platforms. This aggregate number includes unique items stored in Calisphere, Archive-IT, Box, HathiTrust, Internet Archive, Dryad, etc. For born-digital collections, we have recorded the total storage size in megabytes (MB). The number of individual items is still being calculated. For digitized collections, there might be a discrepancy between the number of items reported in previous years and the current count. This is because some objects may have been combined into larger batches and reuploaded to Nuxeo, resulting in a 1:many relationship, i.e., one item could represent one page, one document, one file, or one box.

**** UCB BAMPFA no longer tracks views of digitized materials

***** UCB PEER Total downloaded items (all time)

***** UCR deduplicated count of digitized collection items (duplications were found among multiple discovery layers, especially between Calisphere and JSTOR Open Community Collections.
