SCP-AC Meeting
2025-03-31, Monday
2-3PM

Join Zoom Meeting

Meeting ID: 924 4478 1698

One tap mobile
 +16694449171,,92444781698# US
 +16699006833,,92444781698# US (San Jose)

Jason Dezember (UCB), TJ Kao (UCD), Elizabeth Richey (UCI), Kevin Balster (UCLA), Sarah Sheets (UCM), Yoko Kudo (UCR), Renee Chin (UCSD), Cat Lu (UCSF), Catherine Busselen (UCSB), Marcia Barrett (UCSC), Becky Culbertson (UCSD/SCP Ex Officio), Marcus Jun (UCSD/SCP Ex Officio)

Absent: Jason, Renee, Cat
Notetaker: Elizabeth

<u>Announcements</u> **(All)**
- No announcements

<u>Updates from SILS Phase 4 Groups</u>
Resource Management OST (TJ)
- Continue working on cleaning up local 9xx notes showing up in NZ
- Discuss if campuses change their cataloging practices due to Library of Congress's adoption of "Modern MARC"
  - Several campuses have not discussed this yet, but some have Primo configured to display separate LCSH heading and genre/form terms. Making LCSH more linked data compliant and avoiding duplication in records would be useful, especially in music cataloging.

Acquisitions & E-Resource Functional Group (Sarah)
- Discussion on EBSCOhost UI Migrations

- Sherry Lochhaas is reviewing the CZ collection for Kanopy BASE. If it is a viable option for loading records, ERES can discuss further.
- Discussion on updating policy, practice and decision pages.

SCP Updates (Marcus, Becky)
- Added first 5 individual OA monograph titles (collection name "Open access monographs selected by the UC Libraries (Local-OA)" collection id 61581299310006531)
- Added 380 titles to "Institute for the Study of Ancient Cultures (Local-OA)" collection (ID 61584931660006531) from Worldshare Collection Manager

Other
- Does SCP need a policy/procedure for handling Subscribe to Open? (Catherine)
  - Example: Opening the Future – Central European University Press

    - **"Please share this information as needed** with your local team members who process eBooks in your Alma IZ. Over the years FY2022-FY2024, the UCs supported the **Opening the Future – Central European University Press (CEUP)** program to fund open access publishing. Each UC campus chose a different package to support:
      - Political Science Package: Davis, Irvine, Los Angeles, Riverside, Santa Cruz, Berkeley
      - History Package: Merced, Santa Barbara
      - Library Selection Package: San Diego
      - (San Francisco did not participate)

      Because the UCs supported this program for 3 years, each UC now has perpetual access to the package they supported. We are sending this as a reminder to you. Because each UC chose a different package, these were not managed centrally in the NZ. If you did not process these books in your IZ, you may wish to do so now."

- Normally Subscript to Open requests come in as OA requests from bibliographers, but if it's a resource managed in the NZ that becomes open, SCP will get notifications from vendors.
- This example is different because it's managed locally. The policy could say that it becomes managed centrally when it becomes open, but the complication is that not everyone subscribes.
- Should we consider this as Tier 2 or Tier 3? Do we need to put in an OA request for cases like this? Is there any indication of Subscribe to Open in protocol?
  - It should be Tier 3, but reach out to Laura Fouladi or Sherry for clarification.
  - Subscribe to Open could be added as an option on the access form.
