Announcements (All)

UCSD (Renee)

- 5 UCSD monos catalogers (from CJK, Special collections, and Books & Serials) started basic serials cataloging training last week. They will participate in advanced serials cataloging training in July.
- UCSD will be participating in the CONSER DOAJ cataloging project for 2025-2026. Is there other UC interest in making this a UC CONSER Funnel cataloging project?
 - Possible interest from UCSB, UCI but at a future date
- UCSD will be implementing OpenAthens at the end of May. In preparation for this transition, we updated all our restriction notes from "Restricted to UCSD IP addresses" to "Restricted to UC San Diego". Since PIDs do not resolve properly through OpenAthens, we also converted the URLs in 39K portfolios (from PIDs to native URLs) and a few hundred more in collections.

- UCSD has made the decision to stop minting new CONSER PURLs (BibPURLs) for OA resources. We maintain our commitment to BibPURL maintenance and continue to use them in our local portfolios.
 - Other libraries have stopped minting too or mint only a few

UCLA

- UC CONSER Funnel updates:
 - Began working with Berkeley on reviewing records for new cataloger. Becky brought up the potential for the DOAJ project, but they would likely defer until next year
 - With TJ leaving Davis, who should be the Davis campus rep? Any other changes needed? Campus reps are here: <https://libraries.universityofcalifornia.edu/conser/participants/>

Updates from SILS Phase 4 Groups

Resource Management OST

- Catherine Busselen is now Chair (a few months early)
- ETD workflow with eScholarship has had to be delayed due to a change in how CDL will get the records from PQ
- Reviewing/cleaning up 950-999 data
- Looking into how we want to handle orphaned NZ bibs (non-CZ)
- Have been tasked with looking into whether or not campuses should harmonize how we handle OCLC holdings for last copies going to an RLF (Tipasa changes how some of the lending happens)

E-Resources OST (ERES) (Sarah)

-

SCP Updates (Marcus, Becky)

- New collection: [Music Books and Scores](#) requested by UCLA “This digital collection comprises public domain books and music scores selected from the UCLA Music Library.”
- Working with GOBI to deduplicate Project Muse (annual collections) from JSTOR DDA, invalid diacritics (MARC-8 to UTF-8 conversion) in GOBI provided records, will meet with them to discuss in a separate meeting

Other

- UCSB has been working on reinstating/cleaning up Alexander Street Press perpetual titles; have list from ASP of CDL-licensed perpetual titles, as well, which she will forward to Marcus and Becky
