

University of California Libraries (UCL) / University of California Office of the President (UCOP) Statistics

Fiscal Year 2025-2026

Prepared by the [UC Libraries Annual Statistics Project Team](#)
for the University of California Libraries and the University of California Office of the President
<https://libraries.universityofcalifornia.edu/about/facts-and-figures/>

The University of California (UC) Libraries have maintained annual statistics regarding collections, operations and select services for over 75 years; some of these statistics are also utilized by the UC Office of the President (UCOP) for Regents reporting and risk management.

Beginning with the 2025-2026 reporting cycle, the [UC Libraries Annual Statistics Project Team](#) is charged by the Direction and Oversight Committee (DOC) to compile annual statistics generated from the UC Alma Network Zone Analytics tool as well as campus-supplied statistics generated from campus institution zones and non-Alma (e.g., local manual counts, affiliates on separate integrated library systems, etc.) sources. The UC Libraries Annual Statistics Project Team is the successor to and builds on the work of the [Alma Annual Statistics Project Team](#) (AASA-PT).

Ongoing practices for annual statistics reporting

- Holdings stored in UC's systemwide library facilities (SLF) are attributed to the applicable campus depositor based on the facilities' holdings records. For campuses with affiliates, SLF holdings are attributed to the applicable affiliate where that data is available.
- Each campus' electronic licensed content statistics also includes the shared licensed content that is managed by the California Digital Library (CDL) for local campus users.

The UC Libraries Annual Statistics Project Team also continued work begun by the AASA-PT to further streamline statistics-generation and -reporting tasks, including rebuilding the NZ Analytics annual statistics reporting infrastructure using a modular approach, to support ongoing maintenance and enable campuses to more easily leverage annual statistics reporting infrastructure for local projects.

The project team is appreciative of the SILS E-Resources Operations Subteam for their assistance further refining systemwide exclusions for eResources reporting, and to the SILS Resource Management Operations Subteam (RM OST) for their assistance in understanding the resource types newly configured in Alma in 2026 and supporting the project team's decision-making on how to categorize these resource types for annual statistics reporting purposes. The UC Libraries Annual Statistics Project Team will review the RM OST's recommendations for updating how existing (i.e., configured in Alma before 2026) resource types are categorized for annual statistics reporting purposes in the coming months, for implementation in the 2026-2027 reporting cycle.

These changes were made using the team's iterative and consensus-led process, and ultimately adjusted UC Libraries' reporting toward greater accuracy; these changes are in alignment with the [AASA-PT's May 2023 report and recommendations](#) endorsed by the Council of University Librarians (CoUL), Direction and Oversight Committee (DOC) and SILS Leadership Group (SILSLG). Harmonizing and centralizing annual statistics reporting will continue to be an iterative, consensus-led process.

The more detailed statistics for tables found within this summary report are available at [UCL/UCOP Stats Report Fiscal Year 2025-2026](#).
